Memo

To: Industry Public Utilities Commission
Cc: La Puente Valley County Water District, Board of Directors
From: Roy Frausto, General Manager
Date: November 18, 2021
Re: Industry Public Utilities Water Operations Quarterly Report (July – Sep 2021)

In accordance with the City of Industry Waterworks System (the "CIWS") Operation and Management Agreement between the City of Industry (the "City") and the La Puente Valley County Water District (the "District"), the District is providing the CIWS Quarterly Report for the 1st quarter of the 2021-22 fiscal year. The report represents fiscal year-to-date information along with the current status of various items listed under the appropriate heading.

Financial/Administrative

- 2020-21 Fiscal Year Budget A draft report of Revenue and Expenses as of September 30, 2021, is enclosed for your review as *Attachment 1*.
- Fund Disbursements For your reference, a list of disbursements from the IPU Water Operations Fund for the past quarter (by month) has been provided as *Attachment 2*.
- Study of Water Rates and Charges The Industry Public Utilities Commission approved Resolution No. 2329 Adopting a Comprehensive Water Rate Study, and Approving a Water Rate Increase for the City of Industry Waterworks System, and Adopting a Notice of Exemption Regarding Same on October 14, 2021. The first rate adjustments will be implemented during the first billing cycle of November 2021.
- Capacity Fee Report District Staff is working with City Staff to determine the appropriate time for implementation.
- CIWS Website District Staff is working on creating a microsite for the CIWS system.
- Water Arrearages Program District Staff completed and submitted the Water Arrearage Survey and Application for the CIWS on August 25, 2021. District Staff will coordinate with City Staff if any funding comes to the CIWS as a result of this application.
- COVID-19 Pandemic Response and Impacts All essential water operations work continue to be carried out by District Staff. It is important to note that there has been no impact to water quality due to the pandemic. A list of some of the actions that apply to the CIWS are as follows:
 - The payment office is now open to walk-in customers as of July 6, 2021. Customers can still pay their water bill online, by phone, by mail and through a drop box at the payment office.
 - Late charges and water shutoffs for nonpayment have been suspended until further notice.

To date, we have not experienced any issues with staffing; however, there has been long lead times with the acquisition of necessary materials.

Distribution, Supply, and Production

- Summary of Activities A summary report of CIWS field activities for the 1st quarter of the fiscal year 2021-22 is provided as **Attachment 3**.
- City of Industry Well No. 5 Operations Well No. 5 operated for most of the 1st quarter without issue. The latest static water level, pumping water level, and pumping rate for Well No. 5 is shown in the table below.

| | Pump Setting | Static Water | Pumping | | Current GPM |
|-------|-----------------|--------------|-------------|----------|--------------|
| Well | (below surface) | Level | Water Level | Drawdown | Pumping Rate |
| COI 5 | 189' | 110' | 149' | 39' | 1,442 |

- Production Summary The production for the 1st quarter of the fiscal year 2021-22, to meet the needs of the CIWS, was 391.25 AF. The 2021-22 fiscal year production report and related graph are provided as *Attachment 4*.
- 2021 Water Conservation A summary of water system usage for the fiscal year 2021-22 as compared to the calendar year 2013 is shown below.

| Month | 2013 | 2021 | Difference Current-2013 (%) | Accumulative Difference (%) |
|-----------|--------|--------|--------------------------------|--------------------------------|
| July | 141.36 | 135.94 | -3.8% | -14.4% |
| August | 153.97 | 132.51 | -13.9% | -14.3% |
| September | 151.67 | 122.80 | -19.0% | -15.1% |
| Totals | 447.00 | 391.25 | | |

*Production data are shown in acre-feet (AF)

- CIWS and LPVCWD Water Exchange In accordance with the Water Exchange and Supply Agreement between LPVCWD and the City of Industry, the District is providing the water exchange summary as of September 30, 2021, as *Attachment 5*.
- MSGB Groundwater Levels On September 24, 2021, the Baldwin Park key well level was 185.3 feet asl. Watermaster's latest report on hydrologic conditions is enclosed as **Attachment 6**.

Water Quality / Compliance

- Distribution System Monitoring District Staff has collected all required water quality samples from the distribution system for the 1st quarter of the fiscal year 2021-22; approximately 95 samples were collected. All results met State and Federal drinking water quality regulations.
- Source Monitoring All water quality samples were collected from Well No. 5, as required. The table below summarizes Well No. 5's current water quality for constituents of concern.

| | 1,1 DCE | TCE | PCE | All Other | Perchlorate | 1,4-Dioxane | NDMA | Nitrate |
|------------------|------------|------------|------------|-----------|-------------|-------------|------------|------------|
| Month Sampled | | | | | | | | |
| | MCL= 6 ppb | MCL= 5 ppb | MCL= 5 ppb | VOCs | MCL= 6 ppb | NL= 1 ppb | NL= 10 ppt | MCL=10 ppm |
| Aug-21 | 2.4 | 3.4 | 11 | ND | 2.7 | ND | ND | 6.6 |

Capital / Special Projects

- Americas Water Infrastructure Act (AWIA) On October 23, 2018, Congress signed into law the America's Water Infrastructure Act (AWIA). Per Section 2013 of Title II, the AWIA requires community water systems to conduct a Risk and Resilience Assessment (RAA) and develop a corresponding Emergency Response Plan (ERP). As a part of the final process of this project, Staff is currently reviewing the revised draft of the emergency response plan for the CIWS. It is anticipated that the review process will be completed by early November, and Staff will finalize the ERP before the end of the calendar year.
- SCADA Upgrade Project So-Cal SCADA has conducted several workshops with Staff to review and demonstrate the new SCADA software system in a test environment. Staff is currently working to finalize an implementation plan with a phased approach to minimize any operational impacts. It is anticipated that the project's final phase will begin in November and be completed by early December.
- Starhill Lane / 3rd Avenue and Don Julian / Basetdale Waterline Improvement Project The 2017 CIWS Water Master Plan recommended improvements to waterlines in Starhill Lane and 3rd Avenue south of Lomitas Avenue and Don Julian Road from Orange Blossom Avenue to Basetdale Avenue. The contractor completed the new water main installation on 3rd Avenue and Starhill Lane, and Staff completed all testing and water quality sampling. The permanent asphalt roadway repairs were completed, and the new water main is fully in service. The construction of the new 10-inch Watermain on Don Julian was completed in September and is fully in service.

Personnel

• As of September 31, 2021, the District had 9 full-time field employees, 4 full-time office/administrative employees, and 1 part-time office employee. A summary of the hourly rates for each District employee, as of September 31, 2021, is enclosed as *Attachment 7*.

Attachments

- 1. Statement of Revenue and Expenses for the 1st Quarter of 2021-22.
- 2. Fund Disbursement List for 1st Quarter of 2021-22
- 3. Summary of Field Activities for 1st Quarter of 2021-22.
- 4. Production Summary for 1st Quarter of 2021-22
- 5. CIWS LPVCWD Water Exchange and Delivery Summary for 1st Quarter of 2021-22.
- 6. Main San Gabriel Basin Hydrologic Report.
- 7. Summary of Hourly Rates for District Staff as of September 31, 2021.

Balance Owed to LPVCWD in 488 <u>4.31</u>

Notes:

Calculation of payment is not applicable until a full 12 months into the agreement that was entered into in July 2015

Column A represents water delivered in Zone 488 that was not redelivered within 12 months.

Column B represents the undelivered amount multiplied by the agreed the rate to convey water to the 448 zone as detailed in example table above.

Column C represents water delivered in Zone 775 that was not redelivered within 12 months.

Column D represents the undelivered amount multiplied by the agreed upon rate to convey water to the 775 zone as detailed in example table above.

Column E represents the difference between what each party owes.

Attachment 6

OCTOBER 6, 2021

REPORT OF THE WATERMASTER ENGINEER ON HYDROLOGIC CONDITIONS

4 <u>Baldwin Park Key Well (see attached graph)</u>

- Located in the central portion of the San Gabriel Valley within the City of Baldwin Park and used as a general indication of water elevations throughout the San Gabriel Valley
- One vertical foot is equivalent to about 8,000 acre-feet of groundwater in the Main Basin
- On August 27, 2021, the Baldwin Park Key Well groundwater elevation was 187.6 feet.
- On September 24, 2021, the Baldwin Park Key Well groundwater elevation was 185.3 feet, a decrease of 0.5 feet from the prior week. The historic low was 169.4 feet on November 21, 2018.
 - ✤ A decrease of about 2.3 feet from the prior month.
 - About 16 feet lower than one year ago (represents 128,000 acre-feet). Includes an estimated 147,000 acre-feet of untreated imported water in cyclic storage accounts, which represents about 18 feet of groundwater elevation at the Key Well.
 - Producer Cyclic Storage 51,000 AF
 - MWD Cyclic Storage (for UD RDA delivery) 68,000 AF
 - Other Cyclic Storage 28,000 AF

<u>Rainfall (see attached graphs)</u>

- Data are readily available on a daily basis and are indicative of comparative amount of rainfall in the San Gabriel Valley (percent of average)
- Puddingstone Dam as of September 30, 2021
 - ✤ Average rainfall from July 1st through September 30th of each year is 0.40 inches
 - Rainfall during July 1, 2021 through September 30, 2021 is 0.31 inches, which is 78 percent of average.
 - Rainfall during July 1, 2020 through June 30, 2021 was 6.23 inches, which was 34 percent of average.
- Los Angeles Civic Center as of September 30, 2021
 - Average rainfall from July 1st through September 30th of each year is 0.27 inches
 - Rainfall during July 1, 2021 through September 30, 2021 is 0.23 inches, which is 85 percent of average.

Rainfall during July 1, 2020 through June 30, 2021 was 5.82 inches, which was 38 percent of average.

Reservoir Storage and Releases

- There are three dams and reservoirs located along the San Gabriel River above San Gabriel Canyon. Their primary function is for flood control and also120 used to store watershed runoff for subsequent groundwater replenishment.
 - Cogswell Reservoir is located highest in the watershed and has a maximum storage capacity of 10,475 acre-feet
 - San Gabriel Reservoir is located downstream of and receives releases from Cogswell Reservoir, and has a maximum storage capacity of 44,044 acrefeet
 - Morris Reservoir is located downstream of and receives releases from San Gabriel Reservoir, and has a maximum storage capacity of 28,736 acrefeet. Releases from Morris Reservoir and San Gabriel Reservoir are used at local surface water treatment plants and used for groundwater replenishment
 - ✤ Total storage capacity is 83,255 acre-feet
 - The combined minimum pool behind Cogswell, San Gabriel and Morris Reservoirs is about 10,500 acre-feet.
 - Combined storage as of September 28, 2021 was 10,179 acre-feet (about 12 percent of capacity).
 - San Gabriel Reservoir inflow was 2 cfs and release was 2 cfs as of September 28, 2021.
 - Morris Reservoir inflow was 2 cfs and release was 10 cfs as of September 28, 2021. All of the release was diverted from the San Gabriel River at the Azusa Duarte intake for use by Committee of Nine.

Untreated Imported Water Deliveries

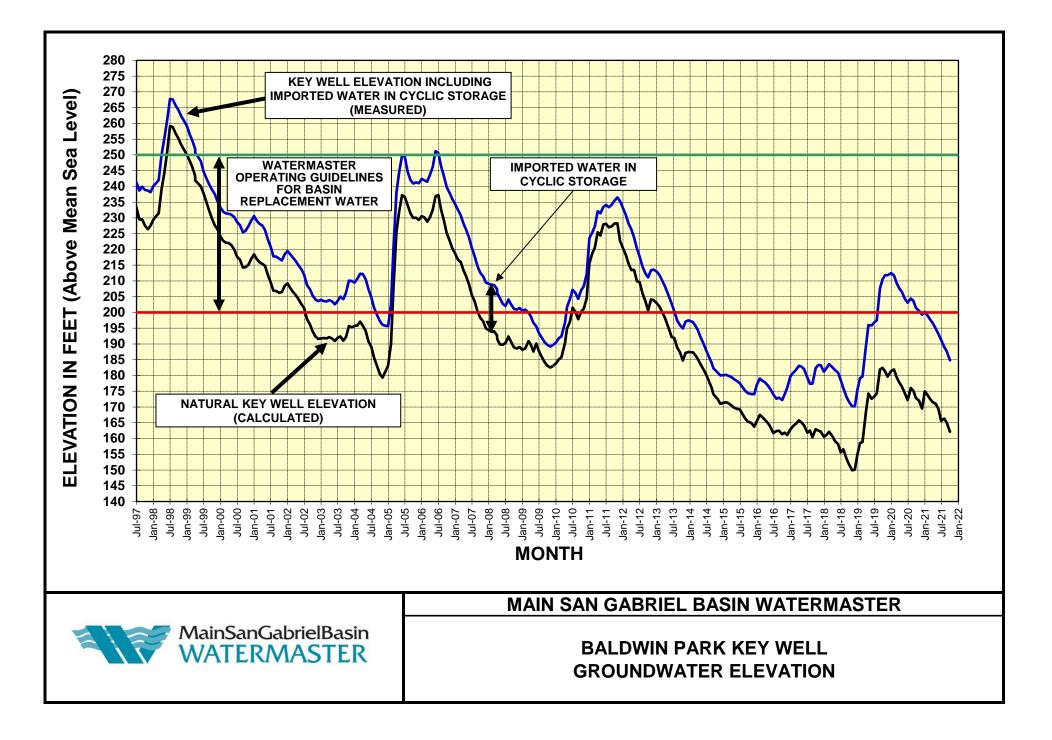

- Upper District
 - USG-3 is located in San Gabriel Canyon just below Morris Dam, it represents Upper District's primary point of delivery of untreated imported water for groundwater replenishment to the San Gabriel Valley. The typical delivery rate is about 190 cfs (or about 375 acre-feet per day)
 - During July 2021, Upper District delivered 618 acre-feet to Azusa's Surface Water Treatment through San Gabriel District pipeline.
 - During August 2021, Upper District delivered 779 acre-feet to Azusa's Surface Water Treatment through San Gabriel District pipeline and 145 acre-feet diverted to Canyon Basin.
 - During September 2021, flows through San Gabriel District pipeline were at 15 cfs to Azusa's Surface Water Treatment and 2 cfs being diverted to Canyon Basin.
 - During September 2021, Upper District did not make deliveries through USG-3.

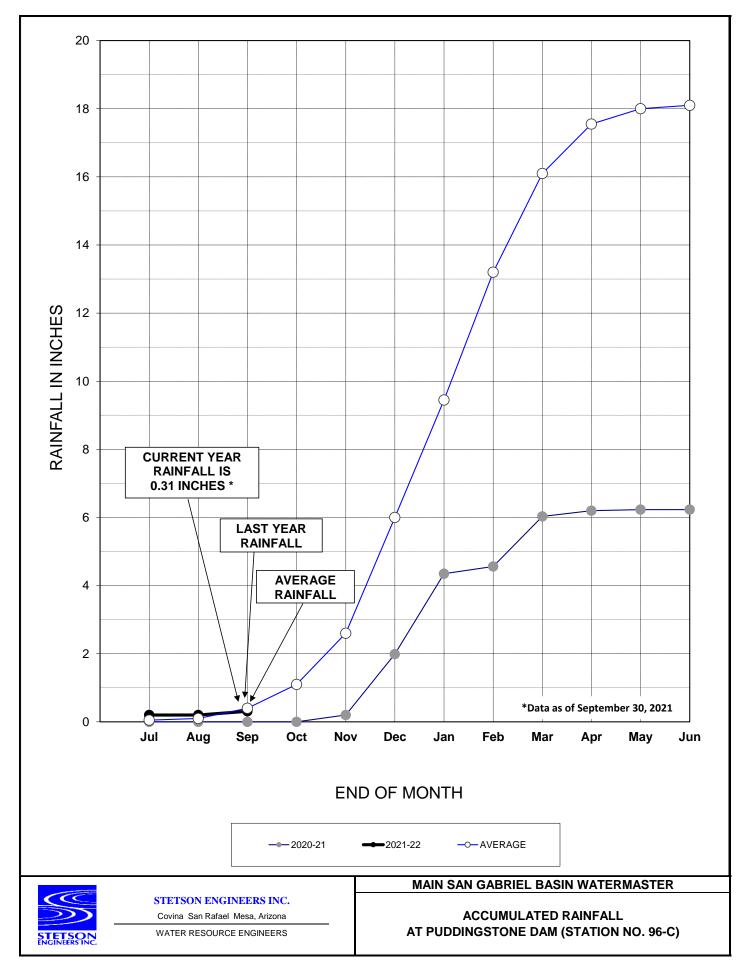

- Three Valleys District
 - During September 2021, Three Valleys District did not make deliveries through PM-26, USG-3 and to the San Gabriel Canyon.
- San Gabriel District
 - During September 2021, San Gabriel did not make deliveries to the San Gabriel Canyon and to the San Gabriel River.

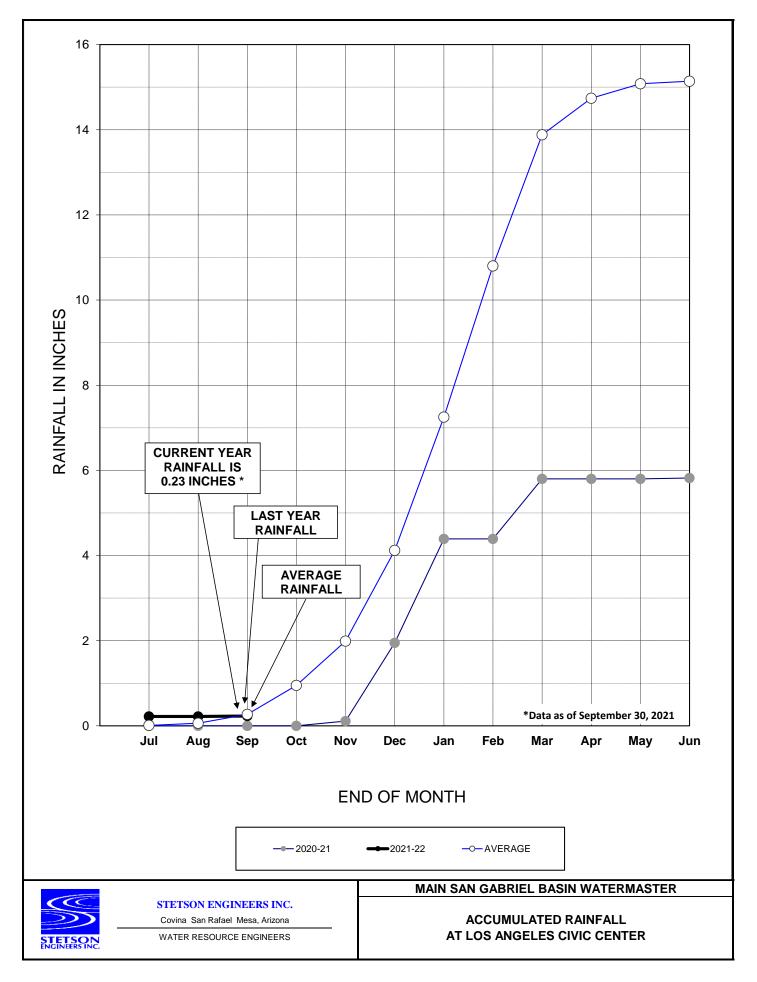

Landfill Report

- Watermaster staff toured the following landfills during the month of September 2021:
 - Azusa Land Reclamation
 - Peck Road
 - Arcadia Reclamation Inc. (formerly Nu Way Arrow)
- During the tour, Watermaster staff found that each landfill appeared to operate consistent with the conditions under each landfill's permit.

RESOLUTION NO. 275

A RESOLUTION OF THE BOARD OF DIRECTORS OF THE LA PUENTE VALLEY COUNTY WATER DISTRICT PROCLAIMING A STATE OF EMERGENCY PERSISTS, RE-RATIFYING THE PROCLAMATION OF A STATE OF EMERGENCY BY GOVERNOR GAVIN NEWSOM, AND RE-AUTHORIZING REMOTE TELECONFERENCE MEETINGS OF THE BOARD OF DIRECTORS OF LA PUENTE VALLEY COUNTY WATER DISTRICT FOR THE PERIOD NOVEMBER 25, 2021 TO DECEMBER 24, 2021 PURSUANT TO BROWN ACT PROVISIONS.

WHEREAS, the La Puente Valley County Water District (the "District") is committed to preserving and nurturing public access and participation in meetings of its Board of Directors; and

WHEREAS, all meetings of the District's Board of Directors and its standing committees are open and public, as required by the Ralph M. Brown Act (California Government Code Sections 54950 – 54963), so that any member of the public may attend, participate, and watch those bodies conduct their business; and

WHEREAS, the Brown Act, in Government Code Section 54953(e), makes provision for remote teleconferencing participation in meetings by members of a legislative body, without compliance with the requirements of Government Code Section 54953(b)(3), subject to the existence of certain conditions; and

WHEREAS, a required condition for application of Section 54953(e) is that a state of emergency is declared by the Governor pursuant to Government Code Section 8625, proclaiming the existence of conditions of disaster or of extreme peril to the safety of persons and property within the state caused by conditions as described in Government Code Section 8558; and

WHEREAS, a proclamation is made when there is an actual incident, threat of disaster, or extreme peril to the safety of persons and property within the jurisdictions that are within the District's boundaries, caused by natural, technological or human-caused disasters; and

WHEREAS, it is further required that state or local officials have imposed or recommended measures to promote social distancing, or, the legislative body meeting in person would present imminent risks to the health and safety of attendees; and

WHEREAS, the Board of Directors previously adopted a Resolution, Resolution No. 274 on October 25, 2021 finding that the requisite conditions exist for the District's Board of Directors and standing committees to conduct remote teleconference meetings without compliance with paragraph (3) of subdivision (b) of Section 54953; and

WHEREAS, as a condition of extending the use of the provisions found in Section 54953(e), the Board of Directors must reconsider the circumstances of the state of emergency that exists in the District, and the Board of Directors has done so; and;

WHEREAS, emergency conditions persist in the District, specifically, COVID-19, and its Delta variant, remain highly contagious and, therefore, a threat to the health, safety and well-being of the District's employees, directors, vendors, contractors, customers and residents; and

WHEREAS, orders from the Los Angeles County Department of Public Health and regulations from the State of California impose limitations on gatherings and provide guidance on best practices with respect to actions to reduce the spread of COVID-19; and

WHEREAS, the District's Board of Directors does hereby find that a state of emergency exists within the District's service area as a result of the continuing presence of COVID-19 and resulting local, state and federal orders and guidance, which has caused, and will continue to cause, conditions of peril to the safety of persons within the District that are likely to be beyond the control of services, personnel, equipment, and facilities of the District, and the Board of Directors desires to affirm a local emergency exists and re-ratify the proclamation of state of emergency by the Governor of the State of California; and

WHEREAS, as a consequence of the local emergency, the Board of Directors does hereby find that the District's Board of Directors and all standing committees shall conduct their meetings without compliance with paragraph (3) of subdivision (b) of Government Code Section 54953, as authorized by subdivision (e) of Section 54953, and that such legislative bodies shall continue to comply with the requirements to provide the public with access to the meetings as prescribed in paragraph (2) of subdivision (e) of Section 54953; and

WHEREAS, the District will continue to provide proper notice to the public regarding all District of Board of Directors' and standing committee meetings, in accordance with Government Code Section 54953(e)(2)(A) and shall provide notice to the public of how they may access any such meeting via call-in number and/or internet link.

NOW, THEREFORE, THE BOARD OF DIRECTORS OF LA PUENTE VALLEY COUNTY WATER DISTRICT DOES HEREBY RESOLVE AS FOLLOWS:

Section 1. <u>Recitals</u>. The Recitals set forth above are true and correct and are incorporated into this Resolution by this reference.

Section 2. <u>Affirmation that Local Emergency Persists</u>. The Board of Directors hereby considers the conditions of the state of emergency in the District and proclaims that a local emergency persists throughout the District, and that conducting District Board of Directors and standing committee meetings virtually will minimize the possible spread COVID-19 and any variant thereof.

Section 3. Re-<u>Ratification of Governor's Proclamation of a State of Emergency</u>. The Board hereby ratifies the Governor of the State of California's Proclamation of State of Emergency regarding COVID-19, dated March 4, 2020.

Section 4. <u>Remote Teleconference Meetings</u>. The District's General Manager, or his delegee, and the Board of Directors and standing committees of the District are hereby authorized and directed to take all actions necessary to carry out the intent and purpose of this Resolution including, continuing to conduct open and public meetings in accordance with Government Code section 54953(e) and other applicable provisions of the Brown Act.

Section 5. <u>Effective Date of Resolution</u>. This Resolution shall take effect immediately upon its adoption and shall be effective until the earlier of (i) the expiration of thirty (30) days from the date this Resolution was adopted, as set forth below, or (ii) such time as the Board of Directors adopts a subsequent resolution in accordance with Government Code section 54953(e)(3) to extend the time during

which the Board of Directors and standing committees of the District may continue to teleconference without compliance with paragraph (3) of subdivision (b) of section 54953.

PASSED AND ADOPTED by the Board of Directors of La Puente Valley County Water District this 22th day of November, 2021, by the following vote:

AYES: NOES: ABSENT: None ABSTAIN: None

> William R. Rojas President of the Board

ATTEST:

Roy Frausto Board Secretary

STAFF REPORT

| Meeting Date: | November 2 | November 22, 2021 | | | | | |
|------------------|------------|---|--|--|--|--|--|
| To: | Honorable | Honorable Board of Directors | | | | | |
| Subject: | Trojan Tec | Frojan Technologies Three-Year Performance Contract Renewal | | | | | |
| Purpose - | | <i>To secure services for the maintenance of Trojan Technologies' Low-</i> <i>Energy UV System.</i> | | | | | |
| Recommendation | 1 - | Approve the performance contract renewal as proposed by Trojan Technologies. | | | | | |
| Fiscal Impact - | | The 2022 Treatment Plant Budget appropriates \$190,400 for NDMA and 1,4-Dioxane Treatment, which includes the cost of system maintenance. The cost of \$116,832 for system maintenance as proposed by Trojan Technologies is within the 2022 Budget appropriation and the proposed cost for the next two years will be the basis for the appropriations in the 2023 and 2024 Treatment Plant Budgets. The cost for this performance contract is a BPOU Project expense and shall be 100% reimbursed by the Cooperating Respondents. | | | | | |
| Previous Related | Action - | In September 2018, the Board approved a three-year Performance Contract Renewal with Trojan Technologies. | | | | | |

Summary

Trojan Technologies' Low-Energy UV System was installed at the District's Groundwater Treatment Facility in 2002, to treat the groundwater contaminants, NDMA and 1,4-Dioxane. The UV System continues to operate with few operational issues to successfully treat the groundwater contaminants to non-detectable levels. The Trojan UV System maintenance is a treatment plant operations expense and will be 100% reimbursed by the Cooperating Respondents (CRs). The contract the District has with Trojan Technologies was originally signed in August of 2002 and is a 15- year contract with an annual renewal provision. The following is a summary of the major contract provisions:

Trojan guarantees the Trojan Low-Energy UV system will remove NDMA and 1,4-Dioxane to below 2 parts per trillion and 2 parts per billion, respectively. If the UV system fails to perform to these standards and Trojan cannot rectify the situation after a second performance test, Trojan shall immediately replace the UV system entirely at their expense.

Trojan also provides equipment warranty resolve component failure in which they would be in communications with District staff within 3 hours of notification. If this communication cannot resolve the issue, Trojan will have a technician on-site within 6 hours. Trojan shall resolve any equipment failure within 3 days of initial notification.

Trojan provides the District with liquidated damages of \$3,000 per day if the Trojan system fails to perform for a total period of 35 days per year or 7 consecutive days. These damages would be assessed against the recurring quarterly payments for this contract. Trojan also provides all quarterly maintenance/inspection and sleeve cleaning.

There are three BPOU water entities, including the District, that operate the same type of Trojan Low-Energy UV system. In 2012, the CRs requested that the BPOU Committee evaluate what type of cost savings can be achieved through modifying the maintenance requirements and contract structure with Trojan for all of the BPOU projects. These discussions resulted in a three-year performance contract renewal that separated the cost of the replacement of UV lamps from the cost of maintenance, repair and performance guarantee. In previous years, the lamps were replaced every 12 months regardless of the hours of service. The 2012 renewal, provided for lamp replacements upon the lamps reaching the permitted 8,760 hours of operations. This resulted in a cost savings that the CRs were looking for.

The proposed performance contract renewal provides for the same pricing structure and is very similar to the 2018 renewal. The proposed performance contract renewal is enclosed for your consideration.

Fiscal Impact

The 2022 Treatment Plant Budget appropriates \$190,400 for NDMA and 1,4-Dioxane Treatment, which includes the cost of system maintenance. The cost of \$116,832 for the twelve (12) months starting October 1, 2021 is within the 2022 Budget appropriation and the \$125,592 for the twelve (12) months starting October 1, 2022 and \$135,012 for the twelve (12) months starting October 1, 2023, will be the basis for the appropriations in the 2023 and 2024 Budgets. The cost for this performance contract is a BPOU Project expense and shall be 100% reimbursed by the Cooperating Respondents.

Recommendation

District staff recommends the Board approve the proposed Trojan Performance Contract Renewal.

Respectfully Submitted,

Cesar A. Ortiz

Water Treatment & Supply Superintendent

- Trojan Technologies Performance Contract Renewal

October 29, 2021

La Puente Valley County Water District 15825 East Main Street La Puente, CA 91744

Attention: Mr. Roy Frausto, General Manager

Subject: Trojan Performance Contract Renewal – YEAR 20, 21, 22

Dear Mr. Frausto:

The new recurring Annual Contract Price, as agreed upon by the parties hereto, is \$116,832.00 US for the twelve (12) months starting October 1, 2021, \$125,592.00 for the twelve (12) months starting October 1, 2022, and \$135,012.00 for the twelve (12) months starting October 1, 2023, to be paid in accordance with the payment schedule set out below.

The following negotiated adjustments have been incorporated into the contract renewal price, and the Performance Contract is hereby amended accordingly to reflect these agreed amendments:

- 1. The Performance Contract is hereby renewed on the following terms for a term of 36 months, commencing October 1, 2021.
- 2. Annualized lamp replacement is hereby removed from the Performance Contract. Accordingly, all references to annual lamp replacement (including, without limitation, the first bullet point under Section 4.1 "Performance Contract Recurring Payment", and clause 1 "Annualized Lamp Replacement (materials only)" and clause 3 "Annualized Lamp Replacement (labor only)", both of "Performance Contract Work Breakdown" under Section 4.1) are hereby deleted from the Performance Contract. Commencing on the Effective Date, lamp replacements shall be performed to ensure that no lamp exceeds 8,760 hours of service. The cost, both labor and materials, for lamp replacements (all lamps) shall not exceed \$50,071 if ordered and installed in YR20 (Oct 1, 2021 Sept 30, 2022, \$53,826 if completed in YR21 (Oct 1, 2022 Sept 30, 2023) and \$57,863 if completed in YR 22 (Oct 1, 2023 Sept 30, 2024) Invoices shall be submitted upon the completion of the lamp replacements and payable within 30 days.
- 3. Insurance Clause 4.4, Subsection '1)' of the Performance Contract is hereby deleted in its entirety and replaced with the following:
 - 1) A commercial general liability insurance policy insuring against bodily injury and property damage including broad form property damage (ISO Commercial General Liability Occurrence Form CG 0001) with a limit to not less than \$2,000,000 per occurrence;
- Amendment of 3.2 Performance guarantee The frequency of evaluation is hereby adjusted from Quarterly to Semi-Annually. The evaluation will be completed by Trojan upon receipt of the following:

- 1) Flow per train at time of sampling
- 2) Water UVT at time of sampling
- 3) UV system inlet NDMA and 1,4-Dioxane concentrations
- 4) UV system outlet NDMA and 1,4-Dioxane concentrations
- 5) Number of rotational units operating at the time of sampling
- 6) Number of hours on the lamps for those rotational units operating at the time of sampling and any lamp failures.
- 7) Inlet hydrogen peroxide concentration at time of sampling
- 5. This Agreement does not cover the repair or replacement of any components which have failed (or are failing) due to corrosion. Any repairs and / or replacements of equipment or related components or replacement parts that are required due to corrosion shall be at the sole cost and responsibility of the District. Nothing contained in this paragraph 5 is intended to void or further alter the Performance guarantee set out in the Performance Contract, as amended in paragraph 4 above.
- 6. Performance Guarantee: Trojan warrants that the UV treatment system will perform as originally specified in Section. 3.1 as long as La Puente Valley Water District is operating under a signed Performance Contract with Trojan Technologies and using genuine Trojan parts.
- 7. Trojan warrants that all parts of the UV Treatment System shall be available to La Puente County Water District (LPVCWD) during the 3-year performance contract renewal
- 8. Early termination of this contract by La Puente County Water District (LPVCWD) is allowable provided the District replaces the equipment with an alternate Trojan UV Treatment System.

The renewed contract will be invoiced a total of \$377,436.00US according to the following schedule:

- 1. \$29,208 USD by September 27, 2021
- 2. \$29,208 USD by December 27, 2021
- 3. \$29,208 USD by March 27, 2022
- 4. \$29,208 USD by June 27, 2022
- 5. \$31,398 USD by September 27, 2022
- 6. \$31,398 USD by December 27, 2022
- 7. \$31,398 USD by March 27, 2023
- 8. \$31,398 USD by June 27, 2023
- 9. \$33,753 USD by September 27, 2023
- 10. \$33,753 USD by December 27, 2023
- 11. \$33,753 USD by March 27, 2024
- 12. \$33,753 USD by June 27, 2024

All aspects of the Performance Contract, as previously amended, not specifically amended hereby will continue as part of this contract. Please indicate below, by your signature, your acceptance of Trojan's Renewable Performance Contact for the 36 months starting October 1, 2021 on the terms stated herein.

Should you have any questions or comments, please feel free to contact me anytime.

Sincerely, Trojan Technologies,

Heather Coníne

Heather Conine Regional Account Manager

STAFF REPORT

| | | 2 | | | | | | |
|------------------|------------|--|--|--|--|--|--|--|
| Meeting Date: | November 2 | 22, 2021 Board of Directors | | | | | | |
| To: | Honorable | Board of Directors | | | | | | |
| Subject: | | Consideration of Proposal from W.A Rasic Construction for the Construction of a Nitrate Treatment System. | | | | | | |
| Purpose - | | To secure construction services to construct the Nitrate Treatment System at the LPVCWD Treatment Facility. | | | | | | |
| Recommendation | 1- | Award a contract to W.A. Rasic Construction for the construction of the Nitrate Treatment System and authorize the General Manager to enter into a construction contract with W.A Rasic Construction in the amount of \$999,750.00. In addition, authorize a contingency amount of \$149,962.50 for the construction contract. | | | | | | |
| Procurement Ana | alysis - | In accordance with The District's Purchasing Policy, Section C – Capital Projects Standards and Procedures, Staff provide a Notice of Inviting Bids to contractors and requested competitive bids to be sealed and submitted by November 8, 2021. | | | | | | |
| Fiscal Impact - | | The District's 2021 Capital Improvement Budget appropriates \$1,660,000 for the Nitrate Treatment System. The 2021 year to date total for this expense category is \$959,981.40. The proposed cost for construction services is \$999,750.00. Approximately \$100,000 of the construction cost will be expensed this year, which is within the Budget appropriation, and the remaining cost will be used as the basis of the 2022 Capital Improvement Budget for the Nitrate Treatment System. | | | | | | |
| Previous Board A | Action - | <u>July 2019</u> – Approved the Nitrate Treatment Project justification and description and authorized the General Manager to proceed with the evaluation of Nitrate concentrations at the District's wellfield as proposed by Stetson Engineers. | | | | | | |
| | | <u>September 2019</u> – Authorized the General Manager to enter in professional services agreement with Geosyntec for the preparation of a technical memorandum to evaluate nitrate treatment systems at the District's Treatment Facility. | | | | | | |
| | | <u>November 2019</u> – Authorized the General Manager to enter into a funding agreement with the Cooperating Respondents to secure funding for Nitrate treatment at the District's Treatment Facility. | | | | | | |
| | | <u>May 2020</u> – Authorized the General Manager to enter into a professional services agreement with Geosyntec for engineering and permitting support services for the Nitrate Treatment Project. | | | | | | |

<u>December 2020</u> – Board authorized the General Manager to proceed with the purchase of the Nitrate Removal Ion Exchange System Equipment from Evoqua Water Technologies LLC.

Background

During Summer of 2018, the District's Nitrate levels where on an abnormal increasing trend that resulted in average treated water near 80% of the 10 mg/l Maximum Contaminant Level (MCL) for Nitrate. LPVCWD formally advised (through a memorandum) Suburban Water Systems (SWS) and the BPOU stakeholders on August 31, 2018, that treated water from the LPVCWD Treatment Facility may continue to be at or slightly above 8 mg/l. In response to the LPVCWD memorandum, SWS sent a letter on September 12, 2018, to the BPOU Distribution list advising that they would not accept water that exceeds 80% of the MCL from District's Groundwater Treatment Facility. At that time, basin levels in the Main San Gabriel Basin were at an all-time low.

In July 2019, the Board approved the groundwater hydraulic modeling evaluation by Stetson Engineer's. The results from this groundwater modeling evaluation identified what the District's wellfield concentration of Nitrate could be in the next 30 years. To support the advancement of the District's Nitrate Treatment System Project, staff requested a proposal from Geosyntec to evaluate three different treatment technologies for Nitrate removal at the District's Wellfield. The treatment systems that were evaluated where (1) Nitrate specific regenerable ion exchange system by Evoqua Treatment Technologies, (2) retrofitting the existing ion separator (ISEP) by Calgon, and (3) a second Nitrate selective regenerable ion exchange system. Based on the results of the alternatives evaluation matrix prepared by Geosyntec, Evoqua's nitrate selective regenerable IX treatment system ranked highest as the most feasible evaluated alternative for removal of nitrate at LPVCWD's groundwater treatment Facility based on The treatment system's modularity, material's availability and Evoqua's full-service project delivery.

To ensure continuous operation with the BPOU remedy, during the course of 2019, there was much discussion and negotiations between the District's Staff, Ad Hoc Committee and the CRs. Through these negotiations, final terms were reached and a final Nitrate Funding Agreement was executed in November 2019. Shortly after reaching this agreement, the General Manager engaged with Evoqua to design the Nitrate treatment system. The work performed by Evoqua is specifically to design a system to accommodate a predetermined footprint and does not include the design to integrate the system to the District's treatment facility.

In May of 2020, Staff requested a proposal from Geosyntec for engineering services for a full integration design to the District's treatment facility along with permitting support. Geosyntec provided an initial proposal which was reviewed by staff and the District's Nitrate Treatment Ad Hoc Committee. Staff then requested a revised proposal which was provided by Geosyntec and was reviewed by staff and the Ad Hoc Committee. After consideration of the revised proposal, the Board authorized the General Manager to enter into a professional services agreement with Geosyntec for engineering and permitting support services for the Nitrate Treatment System Project.

Summary

In December of 2020, the Board authorized the purchase of a Nitrate Removal Ion Exchange System Equipment for the treatment of nitrate levels at the District's groundwater treatment facility in support of the District's Nitrate Treatment System Project. In summary, the purchase of this system included (3) nitrate removal vessels, (1) brine making system skid and bulk brine storage tank, (1) water softener system skid, and (1) main PLC control panel. The 3-vessel system will operate with one or two vessels online, depending on the amount of nitrates present in the feed water. The remaining vessels will be in standby mode. When one vessel goes through a regeneration cycle, the flow is handled by the standby vessel(s), maintaining full capacity during operation.

During the past several months, Staff worked with the design engineer, Geosyntec Consultants, to finalize the design plans, specifications and bid packages for the integration and construction of the purchased Nitrate Removal Ion Exchange System Equipment. Overall, the scope of work consists of constructing a new Nitrate Treatment System at the District's existing facility located at 1695 Puente Avenue, Baldwin Park, California, which includes the following:

- Complying with all relevant regulations and requirements, and obtaining construction permits as applicable from City of Baldwin Park;
- On-Site relocation, handling, installation, and anchoring of the Owner-procured treatment system equipment including the following:
 - Three ion exchange nitrate removal vessels already delivered and stored at the Facility;
 - Two water softener vessels already delivered and stored at the Facility;
 - One bulk brine maker tank already delivered and stored at the Facility;
 - One brine day tank already delivered and stored at the Facility; and
 - Two brine regeneration pumps already delivered and stored at the Facility.
- Furnishing and installation of process piping for interconnecting the Owner-procured treatment system equipment;
- Furnishing and installation of process piping to connect the nitrate treatment system to the BPOU treatments system, downstream SPIX and upstream AOP systems;
- Furnishing and installation of waste brine discharge system, including the associated tank, pumps, and piping to discharge to the onsite industrial wastewater pipeline;
- Relocating the existing hydrogen peroxide storage tank and injection pump skid, including furnishing and installation of one of the hydrogen peroxide injection pumps and its ancillary components, furnishing and installation of an inline static mixer Model Westfall 2800 mixer and injection quill combo unit, or approved equal.
- Furnishing and installation of all pipe supports, mounting features, anchor bolts, including for the Owner-procured equipment;
- Removal and handling sections of existing building and/or fencing as necessary to perform the work, and reinstallation to previous conditions;
- Leak testing, flushing, chlorinating, and dechlorinating the treatment system equipment

and piping (water for leak testing and startup/commissioning will be provided by LPVCWD);

- Startup testing, commissioning, troubleshooting, and operator training;
- Tie in of process water pipeline to existing treatment system per design drawings and tie in of wastewater pipeline to existing wastewater discharge pipe per design drawings, assume up to 5,000 gallons dewatering at tie ins; and
- Performance of general inspection procedures and development of training plans, operation and maintenance manuals, and record as-built drawings;

On October 5, 2021, Staff sent out bid documents to select contractors and held a site walk on October 28, 2021, to clarify any questions or comments prior to the bid due date of November 8, 2021. During the bid opening, Staff received two sealed bids as shown in the table below:

| Contractor | Bid Amount |
|------------------------|----------------|
| W.A Rasic Construction | \$999,750.00 |
| RC Foster Corporation | \$1,238,185.00 |

W.A Rasic Construction submitted the lowest qualified bid (*Enclosure 1*) to construct the new Nitrate Treatment System. Provided their experience and qualifications, Staff recommends the Board award a contract to W.A. Rasic Construction for the construction of the Nitrate Treatment System.

Fiscal Impact

The District's 2021 Capital Improvement Budget appropriates \$1,660,000 for the Nitrate Treatment System. The 2021 year to date total for this expense category is \$959,981.40. The proposed cost for construction services is \$999,750.00. Approximately \$100,000 of the construction cost will be expensed this year, which is within the Budget appropriation, and the remaining cost will be used as the basis of the 2022 Capital Improvement Budget for the Nitrate Treatment System.

Respectfully Submitted.

STAFF REPORT

Meeting Date: November 22, 2021

To: Honorable Board of Directors

Subject:Consideration of Proposal from Hunter Electric Service for Electrical Services and
Installation of Control Systems for the Nitrate Treatment System.

Purpose - To secure a construction services agreement to construct electrical services and the installation of control systems to support the construction of the Nitrate Treatment System at the LPVCWD Treatment Facility.

Recommendation - Authorize the General Manager to enter into an agreement with Hunter Electric Service in the amount of \$277,227.38.

Procurement Analysis - In accordance with The District's Purchasing Policy, Section H – Exceptions, Staff only procured one proposal for these services provided the unique performance capabilities of Hunter Electric Service.

Fiscal Impact - *The District's 2021 Capital Improvement Budget appropriates* \$1,660,000 for the Nitrate Treatment System. The 2021 year-to-date total for this expense category is \$959,981.40. The proposed cost for professional services is \$277,227.38. Approximately \$50,000 of the construction cost will be expensed this year, which is within the Budget appropriation, and the remaining cost will be used as the basis of the 2022 Capital Improvement Budget for the Nitrate Treatment System.

Previous Board Action - <u>July 2019</u> – Approved the Nitrate Treatment Project justification and description and authorized the General Manager to proceed with the evaluation of Nitrate concentrations at the District's wellfield as proposed by Stetson Engineers.

<u>September 2019</u> – Authorized the General Manager to enter in professional services agreement with Geosyntec for the preparation of a technical memorandum to evaluate nitrate treatment systems at the District's Treatment Facility.

<u>November 2019</u> – Authorized the General Manager to enter into a funding agreement with the Cooperating Respondents to secure funding for Nitrate treatment at the District's Treatment Facility.

<u>May 2020</u> – Authorized the General Manager to enter into a professional services agreement with Geosyntec for engineering and permitting support services for the Nitrate Treatment Project.

<u>December 2020</u> – Board authorized the General Manager to proceed with the purchase of the Nitrate Removal Ion Exchange System Equipment from Evoqua Water Technologies LLC.

Summary

In December of 2020, the Board authorized the purchase of a Nitrate Removal Ion Exchange System Equipment for the treatment of nitrate levels at the District's groundwater treatment facility in support of the District's Nitrate Treatment System Project.

During the past several months, Staff worked with the design engineer, Geosyntec Consultants, to finalize the design plans for integrating and constructing the purchased Nitrate Removal Ion Exchange System Equipment. Through this process, Staff identified that the scope of work specific to electrical services and the installation of associated equipment would require a specific understanding of the treatment facilities.

Hunter Electric Service has been performing electrical services related to water facilities for over 35 years. The District has utilized Hunter Electric Service as their electrician for troubleshooting, repairing, and installing electrical services at all water facilities, including the BPOU Treatment Facility. In addition to serving as the District's electrician, Hunter Electric Service was involved in the initial construction of the District's BPOU Treatment Facility in the late 90s and has intimate knowledge and understanding of the facility. Hunter Electric Service has also performed similar treatment plant installations for San Gabriel Valley Water Company and Valley County Water District. Their familiarity and unique performance capability with the selected nitrate treatment system will serve as an asset in avoiding significant issues in the configuration and installation of the new system. Therefore, Staff procured a proposal from Hunter Electric service that will include the following scope of work:

- Furnish and install required control panels, switch gears, instruments, and electrical conduits.
- Perform electrical and control integration in between nitrate treatment equipment and control panels
- Install electrical and control components specific to the brine discharge system and peroxide chemical feed pump.
- Replace and repair all internal and external lighting and inside power receptacles.
- Installation of air compressor equipment components and related control circuits.
- Coordinate electrical and system testing, including participation in the initial nitrate system commissioning start up.

Hunter Electric Service submitted a proposal (**Enclosed**) in the amount of \$277,227.38 to construct and install the necessary electrical services to support the construction of the new Nitrate Treatment System. Provided their experience, qualifications, and unique performance capabilities, Staff recommends the Board authorize the General Manager to enter into an agreement with Hunter Electric Service.

Fiscal Impact

The District's 2021 Capital Improvement Budget appropriates \$1,660,000 for the Nitrate Treatment System. The 2021 year-to-date total for this expense category is \$959,981.40. The proposed cost for professional services is \$277,227.38. Approximately \$50,000 of the construction cost will be expensed this year, which is within the Budget appropriation, and the remaining cost will be used as the basis of the 2022 Capital Improvement Budget for the Nitrate Treatment System.

Respectfully Submitted,

Paul Zampiello Operations & Maintenance Superintendent

| 8. Air compressor and related circuits: | \$ | 15,755.00 | |
| Total Job Price: | \$277,227.38 | | |

This quote reflects the removal of the two Nitrate Analyzers AIT 0201 and AIT 0204 shown on DWG. D-606 sheet 10 of 44. In addition all costs submitted to us by So Cal Scada Solutions have been removed from our scope and pricing

Again we thank you for this opportunity and look forward to working with you on this project. If you have any questions or concerns, you can contact me by E mail or call on my cell. 714-981-4822

Respectfully,

Sam Hunter

STAFF REPORT

Meeting Date: November 22, 2021

To: Honorable Board of Directors

Subject:Consideration of Proposal from SoCal SCADA Solutions for SCADA
Programming and Integration Services for the Nitrate Treatment System.

Purpose -To secure a professional service agreement to perform SCADA
programming and integration services to support the construction of
the Nitrate Treatment System at the LPVCWD Treatment Facility.

Recommendation - Authorize the General Manager to enter into a professional services agreement with SoCal SCADA Solutions in the amount of \$60,880.00.

Procurement Analysis - In accordance with The District's Purchasing Policy, Section H – Exceptions, Staff only procured one proposal for these services provided the unique performance capabilities of SoCal SCADA Solutions.

Fiscal Impact - *The District's 2021 Capital Improvement Budget appropriates* \$1,660,000 for the Nitrate Treatment System. The 2021 year-to-date total for this expense category is \$959,981.40. The proposed cost for professional services is \$60,880.00. Approximately \$10,000 of this cost will be expensed this year, which is within the Budget appropriation, and the remaining cost will be used as the basis of the 2022 Capital Improvement Budget for the Nitrate Treatment System.

Previous Board Action - <u>July 2019</u> – Approved the Nitrate Treatment Project justification and description and authorized the General Manager to proceed with the evaluation of Nitrate concentrations at the District's wellfield as proposed by Stetson Engineers.

<u>September 2019</u> – Authorized the General Manager to enter in professional services agreement with Geosyntec for the preparation of a technical memorandum to evaluate nitrate treatment systems at the District's Treatment Facility.

<u>November 2019</u> – Authorized the General Manager to enter into a funding agreement with the Cooperating Respondents to secure funding for Nitrate treatment at the District's Treatment Facility.

<u>May 2020</u> – Authorized the General Manager to enter into a professional services agreement with Geosyntec for engineering and permitting support services for the Nitrate Treatment Project.

<u>December 2020</u> – Board authorized the General Manager to proceed with the purchase of the Nitrate Removal Ion Exchange System Equipment from Evoqua Water Technologies LLC.

Summary

In December of 2020, the Board authorized the purchase of a Nitrate Removal Ion Exchange System Equipment for the treatment of nitrate levels at the District's groundwater treatment facility in support of the District's Nitrate Treatment System Project.

During the past several months, Staff worked with the design engineer, Geosyntec Consultants, to finalize the design plans for integrating and constructing the purchased Nitrate Removal Ion Exchange System Equipment. In addition to the construction and installation of nitrate treatment vessels and electrical control panels, the nitrate treatment system will require to be integrated into the overall BPOU treatment plant process. A vital component to the system operations is the communication and control through the District's Supervisory Control and Data Acquisition system (SCADA). As the Board is aware, Staff is currently working with SoCal SCADA as the integrator performing the comprehensive upgrades and installation of the new SCADA software and communication system. Based upon the specific requirements of the project and the extensive understanding, Staff identified the necessity to utilize SoCal SCADA for software integration of this new Nitrate Treatment System and requested a proposal for the following scope of work:

- Programming of main control panel PLC with The process control descriptions
- Conduct factory testing panel and components prior to site installation
- Assisting in the coordination of loop checking instrumentation and control systems prior to commissioning start-up
- Providing written As-builts for all PLC programming and configuration controls
- Integration of new nitrate treatment facility to existing districts SCADA software
- Develop graphics, trends, alarms, and reporting for the new nitrate treatment facility

SoCal SCADA Solutions submitted a proposal (**Enclosed**) in the amount of \$60,880.00 to perform the necessary SCADA programming and integration services to support the construction of the new Nitrate Treatment System. Therefore, provided their experience, qualifications, and unique performance capabilities, Staff recommends the Board authorize the General Manager to enter into an agreement with SoCal SCADA Solutions.

Fiscal Impact

The District's 2021 Capital Improvement Budget appropriates \$1,660,000 for the Nitrate Treatment System. The 2021 year-to-date total for this expense category is \$959,981.40. The proposed cost for professional services is \$60,880.00. Approximately \$10,000 of the construction cost will be expensed this year, which is within the Budget appropriation, and the remaining cost will be used as the basis of the 2022 Capital Improvement Budget for the Nitrate Treatment System.

Subject: Proposal for LPVCWD Nitrate Treatment Facility SCADA Integration

Dear Mr. Zampiello:

SoCal SCADA Solutions is pleased to present this proposal for your review. This proposal was prepared based on the RFQ you forwarded to us on Aug 18th and our comments on the drawings.

Attached please find a detailed Scope of Work as shown in Exhibit A. In summary, our work will include programming and testing of P-3000 PLC, and new Plant Ignition to integrate the new Nitrate Treatment Facility. Our lump sum fee for this Scope is \$60,880 including tax, travel expense and labor. Exhibit A provides details of our assumptions and exclusions of the proposal.

Should you have any questions or desire additional information, please feel free to contact me directly

Put Clients First, Always

Exhibit A: Scope of Work & Cost

Task 1: Project/Construction Management

- Meeting, site visit & workshop
- Review and provide comments on the design and shop drawings.
- Coordination with Electrical contractor for testing and start-up
- Project admin and close-out

Task 1 Lump Sum Cost: \$ 3,470

Task 2: Program P-3000 Main Control Panel

Provide the following services for the P-3000 Main Control Panel

- Program the PLC per Sec 40 61 96 Process Control Description
- Conduct Factory test in the panel shop before shipped to the site for installation
- Assist loop checking on site before start-up
- Participate start-up on site
- Provide final AS-BUILT PLC program

Task 2 Lump Sum Cost: \$27,760

Task 3: Integrate Nitrate Treatment Facility to Plant SCADA (Ignition)

- Workshops with the District Operations
- Work with Evoqua for the data exchange between Plant SCADA and Evoqua's system
- Develop graphics, trend, alarm and report for the Nitrate Treatment Facility
- Program to integrate Nitrate Treatment Facility to the new Plant SCADA system
- Testing and training

Task 3 Lump Sum Cost: \$29,650

Task 1 - 3 Total Lump Sum Cost: \$60,880

Assumptions:

- 1. Materials including hardware and software will be provided by others
- 2. Panel shop is in Southern California

Exclusions:

The following materials/works are *excluded* from our current proposed scope:

1. AB PLC Programming software tool: RsLogix5000 standard edition

Note: We will use our own RsLogix 5000 software for the programming. If the District plans to have its own licensed RsLogix5000 software, we can assist the District to obtain a quote and the District can purchase directly.

STAFF REPORT

| То: | Honorable Board of Directors | |
| Subject: | Professional Auditing Services | |
| Purpose - | To secure professional auditing services t financial statements for year 2021. | to audit the District's annual |
| Recommendation | Authorize the General Manger to enter in & Brown LLP to perform auditing set proposal letter dated November 15, 2021. | rvices consistent with their |
| Fiscal Impact - | There is no fiscal impact to the 2021 Discost will be used as a basis for the 2022 P As standard, the expense for auditing set between the District and the Treatment Pi | Professional Services Budget. rvices will be divided evenly |

Summary

The District's 2020 audit of its financial statements was performed by Fedak & Brown LLP for a cost of \$18,473. Recently, Fedak & Brown LLP submitted a proposal to continue providing auditing services to the District for a cost of \$17,450; this cost also includes the preparation of the District's State Controllers Report. The proposal is an approximate 6% reduction in fees based on their understanding of our District and its requirements as a Special District, along with the knowledge of our agreement with the Baldwin Park Operational Unit (BPOU). To comply with State requirements, the Audit Partner assigned to the District will be rotated for the calendar year 2022.

Fiscal Impact

There is no fiscal impact to the 2021 District Budget. The Proposed cost will be used as a basis for the 2022 Professional Services Budget. As standard, the expense for auditing services will be divided evenly between the District and the Treatment Plant. The recommended action will result in an expense of \$17,450 for annual auditing services to be performed by Fedak & Brown LLP.

Recommendation

Authorize the General Manger to enter into an agreement with Fedak & Brown LLP to perform professional auditing services consistent with their proposal letter dated November 15, 2021.

Respectfully Submitted,

Gina Herrera

April 4, 2021

Mr. Roy Frausto, General Manager La Puente Valley County Water District 112 N. First Street La Puente, California 91744

Re: Cost Proposal for Continued Independent Auditor Services

Dear Mr. Frausto:

Based on our understanding of the La Puente Valley County Water District's (District) requirements, our fee for audit services and preparation of the District's State Controllers Report at our discounted rates for the fiscal years ending December 31, 2021 through 2023, and optional years 2024 and 2025 is **\$17,450** each year. This fee is an approximate 6% reduction in fees based on our understanding of the District. We are recommending Audit Partner rotation for the fiscal year 2022 to maintain freshness of perspective and comply with State requirements.

Our estimate for out-of-pocket expenses is a separate estimate and may not be utilized in total to the amount estimated.

Again, these fees are based on the estimated hours using our discounted hourly rates. The components of this audit services fee proposal and out-of-pocket costs for the years ending December 31, 2021 through 2023 and optional years 2024 and 2025, are itemized in the attached Exhibits.

Our not-to-exceed fee proposal is contingent upon our understanding of your requirements and the assistance we require as noted in our original audit technical proposal.

Additional services not included in this proposal will be based on our discounted billing rates based on the level of experience required. We would execute a separate contract for these services, if they are requested by the District.

I am authorized to make representations for Fedak & Brown LLP and am duly authorized to sign a contract with the District.

Christophen & Brown

Christopher Brown, CPA CGMA

April 4, 2021

Date

Proposed Hours and Our Fees

We anticipate that, for the years ending December 31, 2021 through 2023, and optional years 2024 and 2025, the audit of the District will approximate 150 hours. These hours, by major area, are summarized as follows:

| Audit Steps | Partner | Mngr/Sup | Staff | Total |
|----------------------|---------|----------|-------|-------|
| Planning | 2 | 5 | 10 | 17 |
| Control Testwork | 4 | 10 | 20 | 34 |
| Substantive Testwork | 6 | 15 | 45 | 66 |
| Reporting | 8 | 10 | 15 | 33 |
| Total Hours | 20 | 40 | 90 | 150 |

As shown above, we expect approximately 40% of engagement hours to come from the Partners and Manager/Supervisors assigned to the engagement.

Working on the premise that we will be provided with a year-end trial balance, along with an audit package of reconciled balances and supporting schedules of all balance sheet accounts, we expect to perform the audit of the District at fees as stated in the attached Schedule of Professional Fees on Page 3for the years ending December 31, 2021 through 2023, and optional years 2024 and 2025, respectively.

Our fees are based on the product of the time spent on the engagement and the billing rates of the individuals assigned, plus out-of-pocket costs (such as, report reproductions, typing, postage, travel, copies, telephone, etc.). We will obtain the assistance of the District's personnel to the extent possible and otherwise endeavor to keep these charges to a minimum. We will submit progress billings monthly to your office as our work progresses, which will be due and payable thirty days from the date of the invoice.

Based upon the present size and scope of the activities of the District, we expect to perform the services enumerated above at our standard hourly rates. Our standard hourly rates vary according to the degree of responsibility involved and the experience level of the personnel assigned to the audits. We have provided a breakdown of our current hourly rates, which would apply to this engagement on the attached Schedule of Professional Fees on Pages 4 through 6 of this cost proposal.

In accordance with your previous requests, the Office of Management and Budget Circular A-128, and Firm policy, we will maintain our work papers for at least seven years and make them available to the District, state agencies, the General Accounting Office, and other parties upon the direction of the District.

We want the Board to understand that we will provide <u>any</u> assistance and answer <u>any</u> questions that the District's staff or members of the Board may have when they arise for the entire duration of our contract. We find it important to stay abreast of the District's activities and accounting issues during the entire engagement.

We would like to thank you and the Board for the opportunity to submit a proposal for the auditing services of the District. Because of our experience in special districts and our interest in the District, we will provide you with assistance in your operations as well as meet the audit needs of the organization. We will also continually make recommendations on these and other matters that come to our attention. We are proud of the professional services we provide and encourage you to make inquiries to any of our clients about their satisfaction with our services and the quality of our staff.
